

**NVT Annual Meeting 2 JUNE 2010**  
**Woudschoten, Zeist**

**Innovative testing in Reproductive Toxicology and Toxicologic Pathology**

- 8.30**            **Registration**
- 9.30**            **Introduction morning programme: chairman Aldert Piersma**
- 9.40**            **Keynote speaker: Bob Chapin, Pfizer Global R&D**  
Low-Compound-Requiring Assays: The New Normal?  
One View from Industry
- 10.30**          **Rob Stierum, TNO Kwaliteit van Leven**  
Innovative Technologies in developmental toxicology
- 11.00**          **Coffee/Tea Break**
- 11.30**          **Dorien van Dartel, RIVM**  
Embryonic stem cells, transcriptomics and prediction of developmental toxicity
- 12.00**          **Bart van der Burg, BioDetection Systems**  
In vitro screening methods to predict endocrine disruption and reproductive toxicity
- 12.30**          **Annual Meeting Netherlands Society of Toxicology**
- 13.00**          **Lunch + Poster viewing**
- 14.00**          **Introduction afternoon programme: chairman Ruud Woutersen**
- 14.00**          **Keynote Speaker: Mikala Skydsgaard, LAB Research (Scantox)**  
Göttingen Minipigs as non-rodent species in general toxicology including reprotoxicology and background pathology
- 14.45**          **André Penninks, TNO Kwaliteit van Leven**  
The Minipig for juvenile (immuno)toxicity testing
- 15.15**          **Regine Steegers-Theunissen, Erasmus MC**  
The role of nutrition in the developmental origin of health, anomalies and disease.
- 15.45**          **Coffee/Tea Break**
- 16.15**          **Keynote speaker: Stefan Scholz, UFZ-Helmholtz Ctr Environm. Res.**  
The Zebrafish embryo model in teratogenicity and mode of action screening of chemicals
- 17.00**          **Award ceremonies**
- 17.30**          **Aperitif**
- 18.00**          **Dinner**
- 21.00**          **Adjourn**
